

Endovision Single Use Laparoscopic Needle Holders

Laparoscopic Needle Holders Can **NOT** be cleaned!

SINGLE USE is the only way to:

- Eliminate cleaning concerns
- Eliminate cross-infection risks
- Reduce risk of Repetitive Strain Injuries
- 3 ratchet positions suit even small hands
- Design similar to popular reusable models
- Guarantee sterility for every patient every time
- Extremely light weight. Less than 128g vs popular reusable model 256g
